

# Empowering Your Success with your Microsoft Security Investments

**The Microsoft End Customer Investment Funds (ECIF) Program is designed to accelerate your journey with Microsoft products and solutions. This program provides funding to Trustwave to support your success.**

## How ECIF Benefits Customers

Through ECIF, customers can access funded services that simplify the adoption and deployment of Microsoft technologies. Whether it's proof-of-concept projects, deployment assistance, or specialized training, ECIF ensures that your organization receives tailored solutions to meet your unique business needs.

### Key Advantages:

- 1 Accelerated Adoption:** ECIF supports initiatives like product deployment, migration from competitive solutions, or advanced training to help you maximize the value of your Microsoft investments.
- 2 Expertise at Your Fingertips:** Trustwave, an approved ECIF Microsoft partner, provides services directly, ensuring the highest quality and compliance standards.
- 3 Streamlined Process:** Trustwave handles the funding application and execution, so you can focus on your business goals.

## Realizing Potential with ECIF

With ECIF, Microsoft and Trustwave are committed to driving innovation, growth, and exceptional outcomes for you. Whether your project involves deploying Microsoft Security solutions or evaluating the benefits to your organization with proof-of-concept workshops, ECIF provides the resources to turn your vision into reality. Reach out today to learn how you can leverage ECIF for your next project

ECIF benefits are determined solely at Microsoft's discretion, and not all customers will qualify. Funding approval is based on specific criteria set by Microsoft, which may be updated at any time without prior notice. Funding is not guaranteed until formal written approval is provided by Microsoft.
